Local Afro-Brazilian Capoeira Group Performs for Students

GINA COLUMBUS MANAGEMENT EDITOR

Capoeira Sol Nascente, a local group who teaches the Brazilian dance Capoeira, performed in Anacon Hall on Wednesday, February 18th at 7 p.m. to demonstrate their style of dancing to students, faculty and staff.

Afro-Brazilian Capoeira is a legendary dancing combined with martial arts. It is also a fitness program made to not only build muscle, but only confidence and to relieve stress. Capoeira stands for “brush wood” and goes back approximately 500 years.

The history of Capoeira began when African-American and Native slaves were brought to Brazil. After they became freed, African-Americans and Natives designed communities to learn fighting techniques and ways to survive, especially with Capoeira. After their skills were discovered, many African-Americans were then made into bodyguards for higher figures, including politicians in order to swing a vote.

Kasey Sanders, known as Professor Baimao from Capoeira Sol Nascente, said that Capoeira is viewed as a “decoration dance.”

“Capoeira Sol Nascente, the first Capoeira academy from the Jersey Shore, presented many different dances for students in Anacon on Wednesday.

“It was used as a disguise, to disguise martial arts from the slave master,” Sanders said.

The group who performed consisted of 10 people who all wore green t-shirts and white pants. Before the presentation, they did a mass amount of stretching exercises to warm up.

Several types of Capoeira dances were introduced to the audience by Capoeira Sol Nascente. One of them consisted of a stick and/or sword fight that young men engaged in to protect their tribes.

Capoeira’s Sol Nascente’s harmonious dances also included singing in Portuguese. Several instruments were also incorporated in the show.

Human Rights Advocate Lectures on Justice System

CHRISY MURRAY MANAGING EDITOR

Human rights advocate Bonnie Kerness presented “From Slavery to the Prison System: Human Rights Violations in America” to an audience of students, faculty, and even a former inmate.

Kerness’ first observation of oppression occurred as a child watching others how her age try to go to school while being hosed by police and bitten by dogs. “Since 1975, I have served as a human rights advocate on behalf of men, women, and children in prison throughout the country. I have also been a part of the Women’s movement, the gay movement, the anti-war movement, the prison movement, and the Welfare Rights and Housing movements. I have also marched in the National Associated for Advancement of Colored People (NAACP),” said Kerness.

She currently directs a Prison Watch Project as part of the American Friends Service Committee, a social action arm of who have a 300-year history of commitment in dealing with human rights issues for prisoners.

According to Kerness, prisons are one of the largest growth industries in the United States. “The expansion of prisons, parole, probation, and the court and police systems has resulted in an enormous bureaucracy which has been a boon to everyone from architects, plumbers, electricians, to food and medical vendors – all with one thing in common – a paycheck earned by keeping human beings in cages. People have said to me that the criminal justice system doesn’t work. I’ve come to believe exactly the opposite – that it works perfectly, just as slavery did, as a matter of economic and political policy. Not unlike the era of chattel slavery, there is a class of people completely dependent on bodies of color as a source for income.”

“The welfare system, the public school system, the health care system and the criminal justice system play a profound role in the lives of the poor in this country. It is hard not to note that the rules and regulations of these systems which affect almost all of us, are created, written, and voted upon by mostly upper class whites.”

Bonnie Kerness discussed violation of human rights of prisoners for students and faculty last week.

Student Fashion Show Raises $2700

LESLEI WEINBERG CLUB & GREEK EDITOR

Music filled the halls of Wilson on February 7th, as students walked down the runway at the 5th annual “Shore Looks Good” charity fashion show. Hawk TV, WMCN, the Outlook, Commworks, and PRSSA co-sponsored the event each year. Only local designers including many Monmouth students and alumni featured their original clothing. Many local businesses sponsor or make donations, creating a communal partnership.

This event raised $2,700 for the Mercy Center of Asbury Park. The Mercy Center is dedicated to providing families with emergency, education, and family services to overcome life’s hurdles and hardships. Each year proceeds go toward an organization that doesn’t receive corporate sponsorship and is devoted to helping local families and children. Last year’s charity was AIDS/Allege, an organization devoted to improving the lives of disabled children and the families of children before that was the School for Children in Eatontown.

“Shore Looks Good was not an event thrown together haphazardly, planning the myriad of details took up the entire summer. Jaclyn Paskin, associate producer said, “An unbelievable amount of planning went into the show. When you’ve never produced something like this, you don’t realize how many details need to be worked out. There’s everything big and small- from coordinating with the designers and models, going out and getting donations for the raffles, choosing the right charity for the proceeds to go to, hanging decorations and blowing up balloons on the day of the show. Seeing the final product was a great experience. I truly feel that the show went amazingly well.”

This year’s show was all...
prison practices are cited by the human rights law as violations. "The treatment of imprisoned white males whose lives will continue to torture, abuse, and humiliate you are constantly scared at, pat searched, humiliated. The excessive "use of force" is many times unnecessary. I've watched and heard women getting beaten to within tears of their lives. Some die, some commit suicide. It is a life of isolation. You are not allowed any family contact. If you brush by another inmate you could go to lock. No handshakes, pats on the backs, or certainly no hugs put people to death," Ellen added. Ellen explained how ethics play at part in the problems with the current system. "Firstly, the method by which they get a suspect to 'confess.' The trials have very little to do about truth. It is about how attorney willwin the US in these cases. If there is evidence, they want you to rotting away in prison."

When the news of the torture going on at Abu Ghraib prison in Iraq broke, then President Bush said they took a back seat to prison that prison doesn't represent the America I know. Unfortunately, for the many attorney who use this citizens and countless undocumented immigrant status in US prisons, this is the America that they, their family members, their lawyers and activists of the suffering of the political prisoners are simple the tip of the iceberg," Kerness said. Kerness's organization, the American Civil Liberties Union, is asystem for Healing and Transformative Justice. "There are models of justice that we as a society need to explore anything other than the punishment and retributive model currently used by the United States. The Center will be a space to bring this collective wisdom together in order to vision these other methods of justice," Kerness explained.

"There are models of justice that we as a civil society need to explore other than the punishment and retributive model currently used by the US government...The Center will be a space to bring this collective wisdom together in order to vision these other methods of justice."

DIANA CAPPELLUTI, POLITICAL EDITOR

Nine students from the Community Service Club volunteered at the public of Long Branch at a soup kitchen at the First Baptist Church on Saturday, February 21.
The students helped set up a buffet style meal, prepared by the Second Baptist Church on Saturday, February 21. This is the first year they have helped with this event and have been cooperating with Griffin since October. The club members' responsibilities at the soup kitchen included setting up tables with place settings and utensils, filling buffet trays, serving food, making sure everyone had enough food, carrying plates and bowls to tables for those who needed assistance, and handing out desserts.

ERIN SLATTERY, Community Service Club Vice President

"Working at the soup kitchen is one of the most rewarding community service activities our club participates in.

"The Community Service Club Volunteers in Long Branch Soup Kitchen is an inner city, multi-cultural community that we need to explore other than the punishment and retributive model currently used by the US government..."
Not Just Stereotypical Cheating

HEATHER BERGER CONTRIBUTING WRITER

Monmouth University’s students and professors have been conducting research on campus in order to find out why both men and women often cheat in a relationship.

Many psychology majors at Monmouth University are interested and choose to study cheating and infidelity as their senior thesis. Dr. Jack Markowski, professor of psychology at Monmouth University said, “Some research that I know about is focused on the personality traits of people who cheat.” The research has not been completed yet, however, Kristynna Markowski, 19, student at the College of Staten Island had been in an exclusive relationship for six months when she cheated. Markowski said, “I get tired of things quickly, so I have a hard time settling down with just one guy; I get bored.” These infidelity studies at Monmouth University take place throughout the semester. In order to participate, Dr. Gary Lewandowski, professor of psychology, said, in the infidelity studies, there are about a hundred participants and they have to be in a current exclusive relationship.

Also, Monmouth University students are only able to participate if they are in a specific psychology course. Ali O’Neill, 20, student at Monmouth University said she is in an exclusive relationship, was in the introductory psychology class, and participated in one of the studies last semester. This research is continuous, so the statistics of the findings are not yet available. Lewandowski said, they have not collected enough data this semester to release the findings. Lewandowski was recently quoted in the magazine, Cosmopolitan, in an article about women cheating on men. Lewandowski said, his study on relationships is one of the few, so that might have led Cosmopolitan to ask him to appear in their article.

There has not been enough research to date to complete their research findings, but these two professors from Monmouth University have been doing continuous research throughout their whole lives.

There have been various stereotypes of how often women cheat, and both professors from Monmouth University found no differences in their research. “It is clear that men ‘say’ they cheat more than women ‘say’ they cheat; it is more likely that men and women are not truthful, with men bragging to facilitate their reputation, and women looking for their unfaithful experiences to appear faithful,” said Demarest. Lewandowski, accordingly said, “Men and women have reported equal amount of cheating, however, married men report more cheating, though there are some who believe men cheat women as much as men in marriage but are more reluctant to report it.” Therefore, men are not the only ones cheating in a relationship. Relationship and infidelity research has shown that both men and women often cheat when they are in a relationship and dissatisfied. Demarest said, “Men and women seem to cheat for different reasons, but at the heart of the matter is emotional satisfaction in a relationship and sometimes this is just momentary satisfaction with the one who you are tempted to cheat with.” Markowski said, “I cheated on my boyfriend because he was not what I was looking for and did not give me my space when I wanted to be with my friends. I had been talking to this other guy over the internet, but I knew him from school, and we just got together one night and hit it off.”

Another study that interests psychologists and students is what age group is more likely to cheat when involved in an exclusive relationship. “Cheating is more likely to occur in college or in any relationship where there are fewer investments, which are things you put into the relationship that you can’t get back once it ends,” said Lewandowski.

Married couples own more things with one another and are afraid to lose these things, so cheating is less likely to occur. Markowski said that she and her boyfriend had not given each other too much as far as gifts or money, so when she cheated, she was not really losing anything. Since college students are more likely to cheat than married couples, Senior Thesis students at Monmouth University are creating studies to obtain more information about infidelity. Lewandowski also said there is a follow-up study going on this semester about this topic.

Miss Monmouth Supports Charity

PAIGE SODANO SENIOR EDITOR

 Theta Xi held its annual Miss Monmouth event to raise money for charity last Wednesday, February 18, in Pollack Theatre. The fraternity holds this event every year to raise money for their philanthropy, benefiting multiple sclerosis.

Miss Monmouth is Theta Xi’s rendition of the real Miss America pageant. A few girls from each of the sororities dress up and go through three rounds of questions, persuading the judges with their attire and answers. The girls were asked questions such as what charity they would donate money to and why they think it is the most important issue facing our country today, and if you had to choose one thing wrong with the world, what would you choose and why. Many of the questions were very similar to questions asked on the Miss America pageant.

The judges for the event were Junior Jon Stolarz from the football team, Junior Matt Frazier from the baseball team and Junior Larry Foppiano from Sigma Pi.

Networking: Is Socializing Just as Important as Studying?

ZACH KAUFMANN
Young Money Magazine

A list of famous college drop-outs would be a long list. Some of the best and brightest in the business, technology, and entertainment worlds have suceeded through hard work and all the right connections. Bill Gates, for example, dropped out of Harvard, and his Microsoft co-founder Paul Allen dropped out of Washington State. For that matter, Steve Jobs was only at Reed College for six months. Ralph Lauren decided he’d rather design ties for Beaux Brummel than finish his education at the City College of New York and Don Imus has said he left college after only a week (too many nappy headed-hos for his liking). President George W. Bush did graduate from Harvard (with a C-average), but his former adviser, Carl Rove, left the University of Utah after only a week (too many fraternities). Steve Jobs was only out of Washington State. For those who are truly innovative or driven...or those whose father’s are well-connected in politics and business...a college degree is may not be necessary to achieve fame or fortune. So is socializing more important than studying? Everyone has heard that it’s “not what you know, but who know” or that? 7 out of every 10 jobs are landed through networking. But don’t get too excited. Recent studies show that college graduates, on average, earn almost double what those with only a high school diploma earn, so it’s still smart to get that degree.

But many college students think that once they graduate they’re set. You wrote that senior thesis, graduated with honors, and got a 3.8. What else do you need? Besides, all it takes is a good resume, right? Post it on CareerBuilder.com, apply to some jobs on Craigslist, and you’ll be making $75K a year in no time. Unfortunately, it’s not that simple. Because neither halves of the saying are true: landing a good job after college is as much about whom you know as what you know. Networking is the key, and that means more than just putting your resume out there or making a couple phone calls and waiting around for the job offers to pour in. Lucky for you that college is one of the best places to network. The Alumni Relations and Student Services Offices can get you started, as many colleges and universities already have partnerships in place with local business and CPGs. What more could you want?

Everyone you meet in your four years of college is a potential business contact, which is why campus involvement is so important. In turn, volunteering, student groups, on-campus jobs, and membership in fraternities/sororities not only show potential employers that you’re motivated and capable of successfully juggling various responsibilities (academic and extracurricular), but also offer you a wealth of opportunities for networking.

Sororities and fraternities in particular offer a good place to toss around some ideas and help you get started with a business venture. As Nichole Tores from Entrepreneur Magazine writes, “Every professional event is a potential business contact, electronic networking is different from face-to-face, needs to be carefully crafted, planned, or practiced. One misspelled word, one uncapitalized pronoun, one lapse of social etiquette, or unprofessionalism, and your best chance of making a positive impression may have been wasted.” Keep these tips in mind, and you’ll be off to a great start.

**ACCELERATED MBA**

- Students take three classes in both the fall and spring semesters, and four classes in summer sessions.
- 30 credit hours
- AACSB Accredited

The Accelerated MBA program is a one-year, cohort-based program, meaning students take a predetermined sequence of evening courses— including a mix of classroom and online formats— to earn the required 30 credit hours.

**INFORMATION SESSION**

Wednesday, February 25, 7:00 p.m.
Wilson Hall, Room 104

Interested in writing, editing, photography or layout & design? Join The Outlook! General meetings are Mondays at 9:00 p.m. in The Plangere Center Room

**Volunteer Corner**

Check in weekly for information on volunteer opportunities both on and off campus.

**Troop Support:** Monmouth University employee Donald Reynolds, a Programme/Analyst in Administration, Information Systems, regularly accepts donations and supplies to be passed on to the troops. Suggested items for donation are: non-perishable food (jelly beans, nuts, Little Debbie snacks, nuts), sunflower seeds, chewing gum, beef jerky, ramen noodles, toothbrushes, toothpaste, icy hot patches, foot powder, ballpoint pens, business cards, and books, newspapers, magazines, disposable cameras, playing cards, boot socks, etc. Donations can be dropped off at the Office of Service Learning and Community Programs on the 3rd floor of the Student Center.

**Search "Volunteer Directory" on the MU home page for more opportunities.**

**Questions?** Email volunteer@monmouth.edu or stop by the Office of Service Learning and Community Programs, Room 314, in the Rebecca Stafford Student Center.

"The best way to find yourself, is to lose yourself in the service of others." - Ghandi
A couple weeks back, a few of The Outlook’s members were inter-
viewed for a story on the future of print media that was to appear in
the Asbury Park Press. That story was recently completed and
appeared in this past Sunday’s newspaper.

Of the three members of The Outlook interviewed, only one,
myself, was actually fea-
tured in the article. The
newspaper business, space
equals money and some-
times content must be cut.

But what if certain con-
tent was cut for a reason
Before I proceed, I’d like
to make three things clear:
this is not an article, this is, in part, a defense of character, and
this is a lesson on print media eth-
ics.

The article, entitled Reading in the Digital
Age, is an examination of the current ways in which we get our
news and communicate such as
the internet, text messages, etc.

The portion in which I am inter-
viewed is at the beginning of the article and says that I send 100
text messages daily, log onto
Facebook when I first wake up,
and that the last book I read was an e-text. All of these things are
true, to an extent.

In the interview, I did say that
I sent an average of 100 text mes-
sages daily... over winter break,
when many of my friends were
not around for me to talk to in
person. When I wake up in the
morning, yes, I do go on Face-
book first because it is my home
page. I also noted that I go onto
Yahoo! and several other sites.

And it is true that at the time of
the interview the last book that
I had read was an e-book, but in
the interview I also said that the
previous thirteen or so books, all
of which were read over the win-
ter break, were all made of paper
and ink.

To read these words being
presented as my own, as a jour-
nalist and a lover of literature,
was disturbing. The exclusion of
these facts in my past interview
was either the reporter did not feel
that the information was relevant to
the article, or he did not feel
that it was helpful to the direction
that he wanted the article to go.
In other words, letting the chips fall
where they may.

The first and foremost job of a journalist,
especially one writing for the news
section, is to present the news
truthfully, faithfully and
without bias.

By excluding informa-
tion from an article, for
whatever reason, the jour-
nalist loses control of
direction of the article.
In some cases, this
decision can have an
impact on the future of
the journalist in their effort to
fulfill an agenda. That is not
the point of a news article.
Opinions belong in the
opinion section, and even
if a piece is an opinion article,
that still does not give the author
license to misrepresent sources.

As a student-journalist, I
learned an important lesson
from this whole situation about
the importance of integrity. An
article is not an article unless it is shown
from all sides.
**Diets Don't Work, Motivation Does**

**ASHLEY CATTANO**

From the ultra-skinny supermodels to the creation of the food-tax to stop and try obesity, it seems that as a society we are always having a hard time maintaining a steady, healthy weight, but is it safe to think that dieting is the only answer? 

**Weight-loss is a significant problem that plagues the United States and as a country we are failing miserably in keeping ourselves healthy, but dieting is not the answer.**

There are millions of different dieting services, pills and programs that make losing weight seem simple and almost unrealistic. As America becomes larger, the computer and electronic portion controlled food right to your door are being welcomed into the homes of millions, with hopes of an everlasting lifestyle change with no real effort needed.  

"Dieting doesn't work," Weight Watchers says. It is one of the many slogans used to make people think: "this time it will be different", but having someone who can record your weight fluctuations each week and encouragingly comment on your progress can only keep you motivated for so long. 

Mary Cattano, 37, a moth- of three, said, "I was on weight watchers for 2 years and couldn't stick to it for more than 45 minutes. After realizing that point I always found myself losing the motivation and gaining back the weight."  

Paying money for people to tell you what the problem is that point I always found myself losing the motivation and gaining back the weight. 

"During our declining economy, fast food is the most readily available and most affordable food. Without the comfort of eating in the area where dieting is con- cerned. Setting realistic goals and using every day activities as in- centive could possibly start a new type of dieting, where the objective is to be healthy, not just to lose weight. Making the objective 'to eat healthy', instead of 'to lose 5 pounds' is much more realistic and a much more reachable goal, trying to maintain a healthy lifestyle is a much better way to get back into those size 8 jeans."

Finding a realistic program of dieting is the fact that even though you change your eating habits or you count your calo- rie intake, you still need to be active and be active, usually regu- larly. Simply eating healthy will give you results, but if you're too lazy to eat healthy, exercising physically is a mandatory part of the process. 

"Wedding where you're the maid-of-honor or you need to fit into that dress for spring break in Cancun, in- stances like these often provoke the motivation to lose weight, so why not use everyday occurrences as motivation as well?"

---

**Do We Rule Technology or Does it Rule Us?**

I witnessed the excitement of a for ending West Bank settlement. Israel and Palestine, in an attempt on behalf of Americans for the Near East South Asia Center completed an internship with the culture and peoples, and even communities seldom available to, or availed of, by many of my peers. I had the opportunity to successfully completed an internship with the cutting edge pole of excellence that is the Near East South Asia Center for Strategic Studies. I also had the chance to lobby my congressman on behalf of Americans for Israel and Palestine, in an attempt to gain legislative support for ending West Bank settlement. I witnessed the excitement of a presidential election firsthand, living just outside of Washington in a swing state. Virginia. Finally, I had the opportunity to meet terrible people, explore a melting pot filled city was a privilege I lived for a semester and country on Earth. Moving to the region of concentration is vast, from the Near East to the Himalayas. Additionally, I had the opportunity to research these countries in depth, concentrating research on those states that are part of the Levant region. My intern at the NESA center had the opportunity to research these countries in depth, concentrating research on those states that are part of the Levant region. Additionally, I had the unique pleasure of helping and interacting with a total of over 100 participants over the course of our three seminars: The Embassy Orientation, for new embassy workers in Washington; The Executive Seminar, for mid-range officers LTC and above; and the research more than interesting. My internship with NESA prepared me to research and develop the U.S. national security argument for ending the Israeli-Palestinian conflict. NESA and National Defense University seminars aimed at exactly this topic, as well as a State Department-Israel delegation hosted by and propagandist-led recruitment. The argument was compelling, and the research made more than interesting. My internship with NESA prepared me to research and develop the U.S. national security argument for ending the Israeli-Palestinian conflict. NESA and National Defense University seminars aimed at exactly this topic, as well as a State Department-Israel delegation hosted by and be assaulted with celebratory cheers and laughter at 12:30 in the morning. Overall, the Washington Center program was a blessing and a pleasure for me last semester. The opportunities gained, the friends made, and the networked contacts made have been well worth the made, and the networked contacts made have been well worth the long work weeks and hard work. I genuinely enjoyed myself, and I feel I have bettered myself as a

Center is one of several regional centers established by the Department of Defense as a form of government policy think tank and mass-diplomacy outreach organization. Its stated mission is to enhance security in the Near East and South Asia by building sustained, mutually beneficial relationships; fostering regional cooperation on security issues; and promoting effective communications and strategic capacity through free and candid interaction in an academic environment. The NESA Center’s region of concentration is vast, stretching from the western end of North Africa to the Himalayas and encompassing parts of EUCOM, CENTCOM, and AFRICOM. Participating countries include Afghanistan, Algeria, Bahrain, Bangladesh, Egypt, India, Iraq, Israel, Jordan, Kuwait, Lebanon, Libya, Maldives, Morocco, Nepal, Oman, Pakistan, Qatar, Saudi Arabia, Sri Lanka, Tunisia, Turkey, the United Arab Emirates, and Yemen. Through my internship, I had the opportunity to research these countries in depth, concentrating research on those states that are part of the Levant region. Additionally, I had the unique pleasure of helping and interacting with a total of over 100 participants over the course of our three seminars: The Embassy Orientation, for new embassy workers in Washington; The Executive Seminar, for mid-range officers LTC and above; and the research more than interesting. My internship with NESA prepared me to research and develop the U.S. national security argument for ending the Israeli-Palestinian conflict. NESA and National Defense University seminars aimed at exactly this topic, as well as a State Department-Israel delegation hosted by and be assaulted with celebratory cheers and laughter at 12:30 in the morning. Overall, the Washington Center program was a blessing and a pleasure for me last semester. The opportunities gained, the friends made, and the networked contacts made have been well worth the made, and the networked contacts made have been well worth the long work weeks and hard work. I genuinely enjoyed myself, and I feel I have bettered myself as a

Brian Cotter and Omar Sedky with Nicholas Himebaugh, all of whom spent last semester in Washington, D.C.

For those interested in writing for the Political News page of The Outlook, please contact Bryan Tiscia, President of The Political Science Club to get started. You can contact him at 0656427@monmouth.edu.

All topics and viewpoints are welcome.
There will be a reunion held for previous study abroad students on Saturday, May 2, 2009 in Anacon Hall. All study abroad alumni from the past eight years are invited. These students have traveled abroad in England, Australia, Italy and Spain. The event will take place from 6pm until 10pm, and tickets are $25.

This event will give students a chance to reunite with their fellow travelers and reflect on their journey together. It will also allow a chance to make new contacts with students that traveled to different countries, or during a different semester. It will also be a chance to network and see where other students have ended up after their study abroad experiences; where they ended up in the career world, if they traveled abroad since their experience with Monmouth, etc.

Monmouth University’s student-run newspaper, The Outlook, has been bringing traveling experiences back to campus by publishing articles written by our overseas correspondents. Every semester a study abroad student sends a weekly update about the trips they have taken, what they have seen and new friends they have met. This weekly account brings the study abroad experience home to Monmouth students on campus for a taste of the opportunities they can enjoy.

For years, students have enjoyed this opportunity by traveling to London, England; Sydney, Australia; Florence, Italy and Cadiz, Spain. Monmouth students have earned credit towards their degree while exploring other countries and gaining a once-in-a-lifetime experience. Studying abroad also fulfills Monmouth’s Experiential Education requirement.

Those that have traveled abroad have had the opportunity to explore new cultures, meet new friends from other places in the world (including American students from other states) and gain the opportunity of a lifetime during their college career.

If you are a Study Abroad Alumnus, you can obtain more information on this event, by contacting Robyn Asaro, Study Abroad Advisor at rasaro@monmouth.edu, or call the Study Abroad office at 732-263-5377. You can also search for Robyn Asaro on Facebook. If you are interested in studying abroad, Fall and Spring semesters offer trips to Sydney, Australia and London, England. The summer semester offers Spain and Italy. Again, you can contact Robyn Asaro for more information if you would like to spend a semester abroad.
In a June 18th, 1982 Washington Post interview conducted by Joe Brown, Shari Lewis commented on the logical draw that show business held for her based upon her upbringing. “It’s funny, when I did my first community performance, my father’s a magician and we always had magic and puppets around the house. And the principles, one beat and she said, ‘Yes, one day you’ll be a performer in one family’s business.’”

To fully hone her natural pro- ficient community (a skill which manifested itself while still a young girl) 11-year old Shari began studying under the tutelage of groundbreaking African American ventriloquist John W. Cooper (1873-1966), an African American ventriloquist undergoing the tutelage of groundbreaking shamanic beings (created by host “Buffalo” Bob Smith), replacing it with a program that spotlighted the new shining star in children’s entertainment, with the self titled Shari Lewis Show (to be one of many series upon which Ms. Lewis would host over the decades of her memorable career).

Continuing the Hurwitz legacy in the absence of Ms. Lewis is her talented daughter Mallory Tarcher (who has adopted the Lewis name to reflect a proud family connection with Shari’s career). Born in 1960, Tarcher was introduced to Lamb Chop at an early age, even utilizing one of the puppets as a fiddling character drug during her infancy (an approach adopted by Lewis in an attempt to avoid the same childhood jealousy that Candice Bergen later admitted to experiencing over her father’s treasured Charlie McCarthy). Lamb Chop and the other puppets Lewis’ troupe were a continual point of Tarcher’s life, drawing her behind the camera to work on her mother’s many programs, upholding the Hurwitz ideal of quality and educational chil- dren’s entertainment.

The death of Shari Lewis from pneumonia in 1998 passed the Lamb Chop mantel to Mallory, a role that she graciously honors a memorial to the proud heritage from which she is descended. She is still composing her con- tribution to this rich history.

May the curtain never fall upon the theater stage, may the communication of art and beauty forever be remembered on and perpetu- ated in such rich lineages as the Hurwitz family. The immortality of the stage, that is the greatest tribute to those shamanic beings, those performers.
He encouraged students to "find that type of person that you are." The group also interacted with the audience often throughout their demonstration, and invited all members to learn the basic steps of the Capoeira dances. For those who were slower to catch on, members of Capoeira Sol Nascente stepped in to help them. Many students were pleased that they attended the presentation.

Sophomore Heather Berger said, "I thought it was really nice that it was interactive." For junior Rob Donato, he chose to come to the performance because of his own curiosity.

"I was hoping to teach them [the audience] how to be more free in themselves, and to open up more," Sanders said.

Sanders also advised to the audience, "Don't be ashamed of who you are and how you get to know people." He also said to live life to the fullest and to "not look around for a finish line."

The local capoeira group from Long Branch used several different instruments during their performances on Wednesday.
Claudio Sanchez, the lead singer of Coheed and Cambria, spoke on a panel at the 2009 New York Comic-Con.

I then asked Sanchez which venue is his favorite to play and he said, "I really like playing New York, just because it's home and it's my favorite city. But I also really like playing at [this one venue] in Virginia 'cause there's a hot tub upstairs." Sanchez laughed at himself and explained, "I've never used the hot tub; it seems like a nice luxury to have." Sanchez and I then began to speak about how his music has always been very concept heavy, even when he was not a member of Coheed and Cambria: "if they [songs] had anything to do with me they were embellished onto the point of fiction. Around the time I created Coheed I decided to create a general story arc that was home and it's my favorite city. But I

2009 Academy Awards Recap
TAYLOR CORVING ENTERTAINMENT EDITOR
One thing is for sure, if Slumdog wasn’t already a millionaire, he sure will be after the 2009 Academy Awards. Slumdog Millionaire took home Best Motion Picture along with seven other Oscars as the biggest winners of the night. People Magazine’s Sexiest Man Alive, X-Men’s Wolverine, and this year’s Academy Awards host Hugh Jackman, kicked the ceremony off with a musical start acting out scenes from the biggest nominees of the evening.

In a strange turn of events, Jackman dragged actress Anne Hathaway up on stage to sing and dance alongside him. Surprisingly Hathaway can sing. Musicals seemed to be the theme of the night when Jackman proclaimed, “The musical is back!” Among the performances of the night was Tina Fey, Steve Martin, Rob Pattinson, Reese Witherspoon, Natalie Portman, Ben Stiller, and Jennifer Aniston. The cameraman was ever so slick to cut to a smiling Angelina Jolie laughing at Aniston’s skit with Jack Black on stage. Coincidence? I think not.

Amid the presenters of the night were Tina Fey, Steve Martin, Robin Pattinson, Reese Witherspoon, Natalie Portman, Ben Stiller, and Jennifer Aniston. The cameraman was ever so slick to cut to a smiling Angelina Jolie laughing at Aniston’s skit with Jack Black on stage. Coincidence? I think not.

A new feature to the present- ing of the Oscars was the five paneled screens of past Academy Award winners. Each acting great walked out and recited a thing it always is.

The big winner of the evening were Sean Penn for Best Actor in a Leading Role, for the movie Milk. Kate Winslet for Best Actress in a Leading Role, in The Reader. The late Heath Ledger for Best Actor in a Supporting Role, in The Dark Knight, and lastly Penelope Cruz for Best Actress in a Supporting Role, in Vicky Cristina Barcelona.

Newcomer Slumdog Millionaire went home the biggest winner of the night with all taking home eight trophies. Slumdog took home Oscars for Best Picture, Best Director, Adapted Screenplay, Original Music Score, Original Song, Cinematography, Film Editing, Sound Mixing.

A new side from the non-stop musical performances and lengthy presenters the 2009 Academy Awards was everything it always is. Glamorous gowns, dapper actors, thank you speeches written on napkins, and a whole lot of crying.

CLAUDIO SANCHEZ OF COHEED AND CAMBRIA SHARES AT NEW YORK COMIC-CON

February 8th at this year’s New York Comic-Con I had the pleasure of speaking with a man whose musical genre has shaped my own interests. Claudio Sanchez is the lead singer of Coheed and Cambria as well as the mastermind behind the story the band tells. Sanchez gave me insight into his career as a musician and also as a writer of a comic with an excessively complicated story arc.

After I asked Sanchez what his primary focus is, he responded, “Right now we are actually working on another record, it is part of the overall saga of Coheed and Cambria which is entitled ‘The Amory Wars’, it is the origin story of the two characters. I am also working on the adaptation for the ‘In Keeping Secrets’ record. ‘KillAudio’ is my other project, which is a designer vinyl toy and a comic book.” Sanchez explained that “KillAudio” is a Seinfeld-like parody of himself and his friends from home where he places them in interesting scenarios and makes fun of them.

When I asked Claudio about his recent Neverender tour, where each time he played, there’s a hot tub upstairs.” Sanchez laughed and explained, “I really like playing New York, just because it’s home and it’s my favorite city. But I

When I asked Claudio about his question-and-answer session where he and his band mates answered any questions without hesitation. As a fan I was thrilled to see a person, whose music and lyrics have inspired me for so many years, be so approachable and willing to please those who are interested in what he does. Claudio Sanchez has a lot of well-conceived projects stemming from his own experiences, and I am sure they will not disappoint.

**Christian rock band Run Kid Run are gearing up to headline their first major tour, headlining the Creation Festival Tour.**

The boys of Hit The Lights took their name from the Metallica song “Hit the Lights,” forming a band off due to association, bands such as MxPx, Underoath, P.O.D. and Mae and current into: Christian Rock. The Creation Tour, taking place in the fall each year in Pennsylvania, is one of many Christian Rock shows done around the country. The band classified the genre the band falls into: Christian Rock. That’s why they went on tour with numerous bands including New Found Glory, Paramore, Valencia, Cute We Aim For, and Motion City Soundtrack. Then they settled down to write their latest release, “The Ground Floor.” However, in that lag time, before attempting to embark in a trip to the UK, the band’s then-lead singer, Colin Ross decided to call it quits with the band, as his heart simply wasn’t in it anymore.

Ever understood, the band played their last show with Ross in their hometown before bringing in a new singer that would allow the band to looking within and choose guitarist and backing vocalist, Nick Thompson.

While a significant change in vocal styles happened with the release of “Drop School. Start Fights,” the band did not suffer too greatly, going back to their same “we don’t care what you think” attitude of music.

As a matter of fact, on this album, they took that attitude quite literally, focusing on an album that essentially concentrates on good sound or not at all. The second single, “Stay Out,” is an anthem to the band about every person just looking for an excuse to stay out all night and enjoy what life has to offer. The second single for “Drop The Girl,” is sound advice to guys anywhere; there is no need for a girl who are in just it for the thrill of it. They actually lead them to looking within and choose guitarist and backing vocalist, Nick Thompson.

ATTENTION SENIORS & GRADUATE STUDENTS

Did you know that you have to apply to GRADUATE?

If you think you will finish your degree at the end of this semester you must apply to graduate!

PLEASE TAKE NOTE OF THESE IMPORTANT DATES FOR THE

MAY 2009 GRADUATION:

- March 1, 2009: Deadline to submit Graduation Applications through e-FORM’s
- April 15th, 2009: Deadline to submit Substitutions, or Waivers through e-FORM’s

Please note: Applications, Substitutions, or Waivers received after the deadline dates will not be processed.

Did you grow up with a family member who struggled with substance abuse?

If so, you are not alone! An estimated 1 in 4 College students would say, “Yes!”

Children of Substance Abusers have all been affected to some degree...

Want to learn more? Contact the Office of Substance Awareness (732)263-5804

Monmouth's SGA is looking for your help in electing our newest four members of Senate! We'll be conducting a 24-hour online election from March 2nd to March 3rd. Keep an eye out for an email sent to you from SGA, and vote for the people who will serve as YOUR VOICE!
Miss Monmouth continued from pg. 3

Stolars said, “Judging the competition was fun because it was my first time and all the girls looked beautiful. I liked the one girl’s answer to the question about giving to charities and her response of giving to the leukemia charity in support of her brother who had it.”

The hosts of the pageant were Junior Gill Ratto from Delta Phi Epsilon and Junior Kevin Goodwin Jr. from Xi Delta. Senior Nick Colonna was the DJ for the night’s event.

In third place was Maggie McPartland from Delta Phi Epsilon, Nicole Pfeifer from the Dance Team in second place, and Lauren Acquaviva from Alpha Xi Delta in coming in first place. All three girls received a bouquet of flowers and gift certificates donated from local businesses. Theta Xi members John Koka and Rocco Pizzarrelli were in charge of the event, but Koka said, “Rocco and I were in charge of running the event, but many of the brothers gave us a hand, we worked together to make the event run smoothly.”

The donations were received from Planet Beach tanning salons, Jersey Mike’s Subs also donated gift certificates. Delta Phi Epsilon member, Katie Paccione, said, “Participating in Miss Monmouth was a lot of fun. It was a good way to get involved with Greek life and support Theta Xi.” Paccione also said, “The questions caught me off guard but I tried my best to get a good laugh out of every one. I thought it went really well and I had so much fun participating, even though I was so nervous the whole time.”

Miss Monmouth Wednesday night. Good Luck girls!! Jewelz...I am sorry the squirrels kept you up last night - maybe we should start names them!” 3mAlaho :: Nirvana and Couture, Thank you for listening to me. BIG AdORE you :: INDULGENCE, Nirvana and Couture! thanks for being the sisters ever! And listening to me all the time. Love you all jUDETher :: 3 love you all! Horoscopes

To get the advantage, check the day's rating:
10 is the easiest day, 0 the most challenging.

Aries • (Mar. 21 - April 19) • This week is a 9
The signs are there, just keep your eyes open. As this week has been so positive you realize you need to take a step forward. Whatever move you make, it is most likely going to be the right one. You may be confronted with a bit of a disagreement but it can be solved with a compromise.

Taurus • (April 20 - May 20) • This week is an 8
The wind seems to have stirred up your life this week but you still believe you are right. Well, that may be so but others will react. Let them calm down these days. Let them rile themselves up, it does nothing to you. This weekend you are in control and ready for some fun.

Gemini • (May 21 - June 21) • This week is a 7
Everyone is talking about you and that is okay. Take heed of their words, they may be a factor later in the week for you. It's important to see the bigger picture. The weekend brings your skills as advice giver into question. Do not doubt yourself.

Cancer • (June 22 - July 22) • This week is a 10
It's about time everything goes right for you. Make sure you slow things down though. Getting wrapped up in warp speed will cause some chaos. Take things down a level or else you may have to do things twice. This weekend you are in control and ready for some fun.

Leo • (July 23 -Aug. 22) • This week is a 7
Feel like you're missing something? You are. Things will make sense as the week comes to a close so fear not. Expect to have a realization or two about someone in your life. Things aren't always as they seem. Try to stay with what works this weekend. You've had enough surprises.

Virgo • (Aug 23 - Sept. 22) • This week is a 6
You can handle giving advice but make sure you look at the larger picture. Focusing on the details (which usually works for you) is not working right now. Take things down a level or else you may have to do things twice. This weekend you are in control and ready for some fun.

Libra • (Sept. 23 - Oct. 22) • This week is a 6
Approaching groups has never been your strong suit. This week-end it is imperative that you spend time on a more one on one basis. You can really shine if you focus your attention on one person before moving to the next. It also appears as though everyone sees something you do not. Focus and try to see what they see.

Scorpio • (Oct. 23 - Nov. 21) • This week is a 6
There's a time to work and a time to play. You have an opportunity to make serious progress but at the expense of something else. The things you are giving up are expendable, the progress you will make, is not. This weekend your schedule will not be as clear as you would have liked but it's worth it.

Sagittarius • (Nov. 22 - Dec. 21) • This week is a 9
You have earned some fun. Although this week started off stressful, things are going quite well now. Everyone wants to play too. Be careful, however, and keep an eye on your health. Don't wear yourself out! This weekend is intense so make sure you are prepared for anything.

Capricorn • (Dec. 22 - Jan. 19) • This week is an 8
It's not surprising that all you want right now is for things to make sense and stability to prevail. It's not impossible to find that but it will take work. This weekend, however, you are positive and can get things done. Distractions prove to be detrimental so stay focused.

Aquarius • (Jan. 20 - Feb. 18) • This week is a 9
Lost in thought this week? That's okay. You have been helping people at a great cost to yourself and that leads to good things for you this weekend. Intellectual conversations soar and the thoughts keep flowing. This weekend, those thoughts start to drift back to the past. Do not dwell there but reminding yourself how you got to where you are is a good thing.

Pisces • (Feb. 19 - Mar. 20) • This week is a 10
Spend the latter part of this week thinking about who you want to be and what you want to create. Think seriously and honestly because this weekend is the time to put those ideas into motion. The stage is set to reveal a new character or plot line of your creation. Congrats and good luck!

**Graduate Programs That Open Doors**

Attend our Graduate Open House on February 22 to learn more.

Getting ahead at work is all about learning and applying new skills, new knowledge and new perspectives. Montclair State offers graduate degrees and certificate programs in 100 innovative, real-world programs of study that are designed to enhance your career. We’ll work with you to create a program of study that fits your schedule and unique needs.

At our open house, you’ll have the opportunity to:

- Learn more about our graduate programs
- Speak with program faculty
- Attend workshops on financial aid
- Learn about preparing for graduate school

Attend our breakout sessions—from how to finance your graduate education to learning more about specific areas of study.

Visit montclair.edu/graduate for specific program information about breakout sessions.

Men Break Seven-Game Losing Streak Against League-Leading RMU

ERIC WALSH
SPORTS EDITOR

The men's basketball team finally snapped their seven-game losing streak under first-year head coach John Carroll at home against Robert Morris, the first team in the Northeast Conference standings they could have a leg up on for the tournament. Monmouth hit the win over Robert Morris, 91-89, breaking their losing streak and keeping them in the hunt for their conference tournament bid.

Averaging just 4.2 points over the last 13 games, forward William Campbell led the Blue and White down 30-29 with 14:30 left in the game, helping to contain the league's highest-scoring team. Kieklak scored a game-high 23 points, but teammate Apo scored 16 points with three assists, and Campbell had 10 rebounds.

Monmouth shot 33.3% in the first half and were outrebounded 20-10. Despite a hot-shooting Robert Morris, the Hawks outscored the Colonials 42-29 in the second half, outscoring the Colonials 53-29 in the second half. The Blue and White also scored a season-high 26 points from the 3-point field. Kieklak scored a season-high 23 points on 8-of-17 shooting, with 12 of those points coming in the second half. Apo added 16 points with three assists, and Campbell had 10 rebounds.

Monmouth's defense held Robert Morris to just 57 total points. The Hawks forced 19 turnovers, including 13 steals and seven blocked shots. They also outrebounded the Colonials 42-32, including 16 offensive rebounds. For the Colonial offense, they scored 82 points with 19 turnovers.

Monmouth's offense was led by Campbell, who scored 20 points with six assists. The Hawks shot 42.2% from three-point range, in comparison to Robert Morris' 37.5%.

Monmouth's defense was clearly the difference maker. The Hawks were able to contain the Colonial offense, holding them to just 57 total points. They also outrebounded the Colonial offense 42-32, including 16 offensive rebounds. For the Colonial offense, they scored 82 points with 19 turnovers.

Jennifer Bender scored her 1,000th point against Sacred Heart which makes her the third female player in Monmouth women's history to reach this plateau. However, for Bender the does have some unfinished business to take care of and that's winning an NEC championship.

Everything hasn't been perfect for Bender. She has been dealing with injuries which has proven to be a difficult but rewarding process at the same time.

Bender's coach, Coach Baxter, was pleased with her performance. Baxter also received the Coach of the Year National Indoor award for the second straight year; landing on the podium with the top three finishers, the 2009 Combined Indoor All-NEC. Baxter's other team members also received their honors. Lynam's performance earned her first place in the 60m hurdles with a time of 8.33. Stephanie Gaitley, which has been her brilliant performance with his second in the 60m hurdles, cross finished in sixth place with a time of 1:16.62, just who finished in 8.50 seconds placed sixth. In the 800m, Yasser Butt finished in a time of 2:00.63, which was a season's best.

Taiwo and Navarro, placed in the top three, were both eligible to compete with their time of 6.98. Taiwo who also placed fifth in the 200m finished in a season's best time of 22.34. Navarro, who had 121 points to win the title. Monmouth's female athletes earned the title for the second straight year; landing on the podium with the top three finishers, the 2009 Combined Indoor All-NEC. Baxter's other team members also received their honors. Lynam's performance earned her first place in the 60m hurdles with a time of 8.33. Stephanie Gaitley, which has been her brilliant performance with his second in the 60m hurdles, cross finished in sixth place with a time of 1:16.62, just who finished in 8.50 seconds placed sixth. In the 800m, Yasser Butt finished in a time of 2:00.63, which was a season's best.
